Use these questions to guide your talk with your doctor about acne treatments that are right for you.

- 1. I have used acne medication in the past; is there anything else I should try?
- 2. Are there specific medications that are designed to treat acne on my back, chest, and shoulders vs. acne on my face?
- 3. What are the differences among the various treatment options for me?
- 4. What are the side effects of these treatments?
- 5. Are these treatments convenient and easy to use?
- 6. What treatment would you recommend for the acne on my back, chest, and shoulders?
- 7. How do I use this treatment?
- 8. How long will I need to be on this medication?
- 9. How long will it take before I start to see my acne begin to clear up?
- 10. Will I always have acne?
